

2010 TAKE OFF

UP...UP...& AWAY!

The move is over and ADS is pleased to announce that it is fully functional at the new location. The equipment business is showing signs of picking up with quoting activity at an all time high. This is very encouraging and we are optimistic that this year will finally see some recovery in North American manufacturing. The new facility is perfect for machine building and as the picture shows is ideal for building multiple machines at the same time. The Peen and Clean operation is also fully functional at the same location and we have experienced an up tick in contract cleaning. We are looking forward to satisfying more customers with both new and used machine solutions and making available higher capacity for overflow and outsourced cleaning. In this respect we will shortly be commissioning a plate machine within the facility. Please contact ADS where we can offer many blast cleaning options.

We Listen-We Perform-We Exceed Expectation-ADS Group since 1994
